INSTRUCTION MANUAL

Now you can play Las Vegas style Blackjack anywhere!

HOW TO PLAY:

The object of *Blackjack* is to accumulate a higher card count than the dealer without exceeding 21.

The computer plays Las Vegas style Blackjack with a single deck of 52 cards. The cards are automatically shuffled when approaching the end of the deck. While the computer is shuffling, the computer flashes "SHUFFLE" on the screen and "KQ" quickly across the dealer's hand.

Turn on the game by pressing the ON/DEAL/HIT button. Press the ON/DEAL/HIT button again to place a 10 point bet and deal the cards.

After the cards are dealt, various words will flash across the screen to tell you your options.

If you choose to receive additional cards, press the ON/DEAL/HIT button. If you want to keep only the cards you have showing, press the STAND button.

The dealer must draw on any hand showing 16 points or less, and will stand on all totals of 17 to 21 points.

If you can build a hand which is closer to 21 than the dealer's

hand (*without going over 21*), **you win!**

FACE UP BLACKJACK is similar to Regular Blackjack, except the dealer's hole card is not hidden when the cards are dealt. In addition, there are no Push, Surrender, or Insurance options available.

BASIC TERMS:

Blackjack - Receiving a card count of 21 with the first two cards (A+K, A+Q, A+J, A+10)

Bust - Going over 21 points.

Doubledown - Doubling your bet.

Face Up - The dealer's Hole Card is showing.

Hole Card - The dealer's second card which is hidden during Regular Blackjack.

Insurance - Betting that the dealer *has* a Blackjack.

Push - Having the same card count as the dealer at the end of the hand, resulting in a tie.

Split - When your first two cards are identical, you can separate them into two hands, both of which will compete with the dealer's hand.

Stand - Choosing to receive no more cards.

Surrender - Giving up your hand so that you will only lose 5 points of your original 10 point bet.

CARD POINTS:

Ace = 1 or 11 Points

King, Queen, Jack ("Face Cards") = 10 Points

All other cards = The number showing on the card

BUTTON FUNCTIONS:

On/Deal/Hit

This button turns on the game and deals additional cards. Hold down to place bets of 10, 20, 30, 40 or 50 points.

Player

While "Game Over" is flashing, hold down to switch from an one player game to a two player game. If "Player 1" is showing, you are in two-player mode. If "Player 1" is not showing, you are in one-player mode.

Insurance

If the dealer's first card (showing) is an Ace, you can place an insurance bet (5 points) by pressing this button. By doing this, you are betting that the dealer has a Blackjack.

If the dealer has a Blackjack: If your hand is not a Blackjack, your original bet and insurance bet are returned to your score. If you have a Blackjack also (push), you win double the amount of your original bet and your insurance bet will also be returned to you.

If the dealer does not have a Blackjack: You lose your insurance bet and the display will flash "L O S E" and you then continue to play your hand as you normally would play it.
