### GAME MODES

There are two game modes to choose from: Klondike Solitaire and Vegas Solitaire. Press the **NEW GAME/GAME** button to select the game mode.

### KLONDIKE SOLITAIRE

In Klondike Solitaire, cards are dealt to the deck 3-at-a-time and the player can pass through the deck indefinitely. Twenty (20) points are deducted for each pass through the deck after the player has gone through the deck three (3) times. The object of Klondike Solitaire is to use all the cards in the deck to build four suit stacks in order from Ace, 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen and King.

#### Card Stacks

You will be dealt twenty-eight cards in seven row stacks. You will build each row stack card face up, in alternating colors, in the order of King, Queen, Jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. As the game progresses, you will move these cards to the suit stacks.

#### Deck

When you cannot move any cards in the row stack, you can draw a new card from the deck.

- To draw a card from the deck, press the **DECK** button until the card flashes. Press the **CARD STACK** button corresponding to the location you want to move the card or the **SUITS** button. The number of passes through the deck is unlimited.

#### Suit Stacks

At the beginning of the game, they are empty. When you draw an Ace, press the **CARD STACK** button corresponding with the location of the Ace until the card is flashing. Then, press the **SUITS** button to move it to its proper suit stack.

#### Timer/Bonus

The number of bonus points you will receive depends upon how quickly you win the game.

[Note: Timer can only be turned on/off at the start of a game, prior to your first card move.]

#### Undo

You'll lose 2 points from your score each time you undo your last move. You will also lose any points awarded for the original move.

#### Basic Rules of Klondike Solitaire

- Row stacks must be built in descending order of King, Queen, Jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2.
- Suit stacks must be built in ascending order of Ace, 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen and King.
- You must play cards in alternating colors in row stacks. For example, you can play a red card (Outlined) on a black card (Solid), or a black card (Solid) on a red card (Outlined).
- A card at the top of a card stack can be moved to its corresponding suit stack, as long as the card you are moving is the next the card in the sequence. For example, you can move a 3 of hearts from a card stack or the deck and place it on top of a 2 of hearts in a suit stack.
- A sequence of cards can be moved, as a unit, and placed on top of another card. For example, a red 6, black 5 and red 4 can be highlighted and placed on top of a black 7.
- When you turn over an Ace, move it to the suits stack.
- Only a King can be moved to an empty space in the card stacks.

- You may pass through the deck unlimited times.
- Deck cards are turned over three (3) at a time.

## VEGAS SOLITAIRE

Vegas Solitaire follows the same rules as Klondike Solitaire, but in this game you will begin with 500 points. Points are accumulated between consecutive games.

- Each time you start a new game, you will lose 52 points (one point for each card in the deck).
- You will win 5 points each time you move a card from a card stack or the deck to a suit stack.
- You will lose 5 points each time you move a card from the suit stack back down to a card stack.
- You may only pass through the deck once.
- Deck cards are turned over one (1) at a time.

### Timer/Bonus

The number of bonus points you will receive depends upon how quickly you win the game.

[Note: Timer can only be turned on/off at the start of a game, prior to your first card move.]

### Undo

You'll lose 2 points from your score each time you undo your last move. You will also lose any points awarded for the original move.
