CALOR INSTANTÁNEO, 5 AJUSTES DE CALOR ULTRA ALTO & SISTEMA DE CONSERVACIÓN DEL CALOR

La tecnología del calor instantáneo hace que la plancha alcance la temperatura seleccionada muy rápidamente, mediante un potente elemento calefactor de cerámica.

Su plancha cuenta con 5 ajustes de calor ultra alto, para que usted pueda escoger la temperatura perfecta para su tipo de cabello, desde el más fino hasta el más rizado o resistente. Esto no es todo. Su plancha también está dotada de un sistema de conservación del calor, igual a las planchas profesionales creadas por los ingenieros de Conair. A diferencia de otras planchas cuya temperatura baja durante el alisado, este sistema aprovecha una subida de tensión que recupera el calor y mantiene altas temperaturas constantes, para brindar resultados óptimos. Este sistema avanzado permite alisar cada sección usando la misma temperatura, lo cual logra resultados uniformes y procura un acabado perfecto.
